Edition line

For over 30 years, Aqua Spa has innovated tools to give our water greater vitality. We have combined the most advanced contemporary design and technology with world-class construction techniques to ensure your enjoyment for years to come. Our focus has changed the concept of personal care, expressing itself through cultural wellness and the highest quality of service.

Since the beginning in 1970, Aqua Spa has specialized in the manufacturing of whirlpool massage bathtubs and hot tubs spas. We utilize the latest materials with the most exclusive manufacturing. Our high impact antibacterial acrylic (exclusive formula) is eight times greater in resistance than those used conventionally.

Long providing the best hot tubs in Latin America, in 1988 Aqua Spa was awarded the certification by the Underwriters Laboratories Inc. and in 1997 Aqua Spa Products were recognized in the European market through our quality certification.

The difference is everything

The perfect way to relax at home after a long day at work is with one of our bathtubs; you will obtain everything you desire with a great value and efficiency.

For Aqua Spa the change is not only something, it is everything we do. The way we manufacture our products, their value, and care for you to enjoy for years. Our main objective is to bring happiness and health to your daily life.

THE DIFFERENCE IS THE IMPACT

Every muscle needs a certain amount of pressure, for which we offer a variety of powerful hydrotherapy jets in every whirlpool bathtub of Aqua Spa. Our certified jets will personalize your massage, you will be able to adjust the jets, modify their pressure and reach the perfect level of relaxation for your hydrotherapy massage.

VIBRO SONIC

The most effective massage since you will benefit of a triple massage: pressure, pulsation and vibration; these three effects are able to activate at the same time and with the possibility to be sequenced by zone, with the purpose of get a massage as personalized as possible.

STATUS LIGHT

It is easy to feel and visualize your bathtub with your light and digital panel. This innovative system changes the use of LED screen, which quickly indicates the status of your bathtub.

Aromatherapy

Magnetotherapy

It's a beauty and health treatment, stimulates circulation, cell metabolism, reducing retention fluids, softens skin, tones the body and relaxes the mind.

The origin goes as far back as traditional medicine in India, China and Greece. It's a method of harmonization and natural well-being. Each color corresponds to a specific vibration with its individual speed wave length or rhythm. Its influence is as rich: physical, psychological or emotional and allows our vital energy to reach a higher level for self-healing.

Scents for the pleasure of your senses. The first role of aromatherapy is to stimulate and reinforce our bodies natural defenses by introducing a state of relaxation and general well-being of the central nervous system.

Natural plant extracts known as essential oils are used for Aromatherapy. These oils are made through steam distillation and careful extraction or pressurization of the fragrant matter contained in the plants.

Magnetotherapy is the application of magnetic fields for the treatment of chronic pain and swelling, as well as other conditions. The careful calculated and placed magnetic fields on each of these tubs, favor the elimination of accumulated toxins and other substances in swelling tissues, significantly reducing the pain from the first session.
